## News From Your TOWN HALL

Your Mayor submitted on your behalf a brief to Colonel Jones, pointing out the crying need for flood control by the City.

But, if the government and the Everglades District provides the Hillsboro as an efficient waterway for irrigation and drainage, you still haven't removed the water from the City to the Hillsboro. —

There is an obligation on your part to get the water to the Hillsboro and get it there quickly in the case of a flood, and it "ain't gonna" run there by itself. It needs some pumping.

What caused the specie tanks at the school house to overflow and jeopardize the health of your children? It might be well to investigate. Something can be done about it, too. When you find out who is using the words "we" and "I" in the fixin' "we" and "I" may have to pay something—so if you don't think it's that serious, just forget it until an epidemic of some kind breaks out.

## Local Cancer Drive Exceeds Quota

Along with millions of cancer sufferers the local Business and Professional Women's Club, who sponsored the national drive in this area, deeply appreciate the response from the public at large who thru their generous donations helped to exceed the goal of \$10,000. With contributions coming in, \$200 over the quota is expected. One third of the entire amount was donated at the theater, and the Gold brothers are to thank the local homes for their splendid cooperation. The balance of the fund was raised by personal contact and thru the mails, the largest contributor being the Rotary Club, with \$500, according to the report given by Mrs. Imogene Fontaine, chairman of the drive.

## PTA Changes Meeting

The Parent Teacher Association of South Bay will meet at the auditorium of the school on Monday, May 5, at 8 o'clock, the meeting date having been changed from the second to the first Monday of the month to permit parents having children in the Belle Glade high school to attend the Belle Glade Parents Teachers Association if they so desire.

Principal Frank Hobson of Belle Glade will be the speaker at the meeting and other parts of the program are being arranged.

The installation of officers and announcement of standing committees for next year and annual reports of retiring officers will be a feature of this meeting.

## Belle Glade Rotary One of Eight Florida Clubs at Meet

Jay Jameson, chairman of the Boys Work Committee of the local Rotary Club, displayed woodwork turned out by the classes sponsored by the local Rotary Club, as one of the eight chosen for outstanding club work.

Many favorable comments from visiting Rotarians throughout the state were heard on the local approach to prevention of juvenile delinquency.

A display sign, "You Name It, We Make It," designed and painted by young Jay Jameson, accompanied the display of work by the local boys, sewing baskets etc., made by the local boys.

A total of 30 Rotarians and Rotary Annas were present at the Sunday night fellowship dinner at the Floridian Hotel, from Belle Glade, and only by Jacksonville, the home of the incumbent District Governor, Fred Bultman.

James Ball, incoming president, and Roy and Mrs. W. J. Bush and Robert Y. and Mrs. Creek remained until Tuesday for the business sessions and social gatherings provided by the host club, Miami Beach.

## Chamber To Get Out The Vote On Tuesday

President Junius Harris of the Chamber of Commerce is receiving the cooperation of all civic clubs in an effort to get all the registered voters to cast their ballots on Tuesday.

There are 1,146 registered voters in Belle Glade, 320 in Chosen, 350 in South Bay, 313 in Lake Harborland and 16 at Shawano, and voters in each of the South Bay, Lake Harbor and Chosen districts are participating in checking the lists and asking all voters to exercise their franchise.

In Belle Glade and Chosen, the list will be broken up in smaller numbers and the maximum number of persons are busy marking these on the lists not to forget to vote on Tuesday.

The plan will be followed thru to see that those eligible to register get their names on the books before another election.

## Tomato Demand Low But Potatoes Moving Briskly

As the crop season of 1946 comes to an end, less and less people are to be found in Belle Glade, as many of the operators and working people have gone to other areas to work in crop operations.

Most of the labor which has gone has been to assignment jobs in the Carolinas, Georgia and Alabama, and some few have gone to New Jersey to work in the asparagus fields and later to handle the tomato crop.

Out at the Okeechobee Growers sugar plantation, a number of the Jamaican laborers, who work on May 1, and will be on their way to the hills, the main land workers will be replaced by Bahamian workers under government contract.

## Rams Have Fine Trip But Meet Defeat At Key West Game

Ray Whitsell, Shelley Connell, H. V. Dras and Paul Bearden, used their respective cars to transport the members of the Golden Rams baseball team to Key West on Friday, where the Rams on their first trip to the state, played a game with the Conchs. On Friday night, the Key West school staged a dance for the entertainment of the visitors and a very enjoyable event is proved to be. The party was held in the swell La Concha Hotel.

The game on Saturday resulted in a 2 to 1 victory for the Conchs. Both Williams and Crotch pitched well but the former allowed two hits and will have three runs each man fanned eight batsmen.

An enthusiastic crowd was out to see the game. This is the last conference game on the tour for the team.

## Tiller Machines Attract Attention Of Local Farmers

### Scientists Tell Of The Results Of Their Years Experimental Work

(Last week The Herald presented a portion of a report on the recent Vegetable Field Day at the Experimental Farm, and the balance of the report here with follows.)

Dr. Townsend also spoke of the mixtures of diatomite, that the powder was superior to the old formula which contained zinc and lime. The other two mixtures contained the new Phyton and Copper-A, which were found almost as good as the old.

He also spoke of what the gathering was in reality, recessed at noon, for a dinner served by the Belle Glade P. T. A. for the benefit of its library fund. All expressed appreciation of the dinner service.

Dr. Clegg, who is now in charge of the work on the East Coast farming sector, named late tomato and bean root rot as the most damaging to crops. Mr. Desrochers demonstrated laboratory tests on the root rot.

## Pet Show Will Be Held Today In City Park

The annual pet show will be held this afternoon at 5 o'clock in the City Park. Every class is urged to attend and exhibit. Books from a home to be entered will be accepted, and a goldfish will be entered; and third prizes will be awarded.

The Recreational Council is sponsoring this show as one of their projects to encourage the children to take part in the daily supervised play in the park.

Most of the labor which has gone has been to assignment jobs in the Carolinas, Georgia and Alabama, and some few have gone to New Jersey to work in the asparagus fields and later to handle the tomato crop.

Out at the Okeechobee Growers sugar plantation, a number of the Jamaican laborers, who work on May 1, and will be on their way to the hills, the main land workers will be replaced by Bahamian workers under government contract.

**Principles On Standard Time**

Attorney General Tom Watson has issued a ruling that the time change to standard time will be held under standard time, from 7 a. m. to 7 p. m., and that the daylight saving time will not prevail in the places in which it is now in effect.

It is recommended that the state legislature pass a bill to that effect.

The Florida National Bank To Take Half Holiday

The Florida National Bank will close Wednesday afternoon, beginning this week, according to an announcement by Milton Campbell. This will be continued thru the summer months.

## Ralph Kirk To Head Lions Club The Coming Year

The Belle Glade Lions club, at their monthly meeting, had nomination and election of officers for the coming year, the new selectees to take office the first meeting in July. Officers chosen are: President, Ralph Kirk; First Vice President, Harry E. Easwood; second vice president, Frank O. Hobson; secretary treasurer, H. H. Pugh; tail twister, W. H. Cooke; Lion Tamer, Dick Hodges; director, W. S. Ingram; and Auditor, W. S. DeLoach.

Delegates to the state convention, Jacksonville, are: Ralph Kirk, H. H. Pugh, H. V. Dras, D. C. Dehaven, Le Puckett, C. A. Boone, Ed Browning and Henry Earwood. The club has six members in Philadelphia in July. H. H. Pugh, Ed Browning and Prof. Davidson.

The benefit show committee made its report and it will be arranged for May 15. Pictures of the Womans' Wedding east were sold to the members. The portraits again brought a lot of good chaffing of the participants.

The commissioners after considerable debate granted the Ward medicine show the permit to go to town on the 15th. The commission, before the Army Engineers, taking in the central Florida section and terminating at the Palm Beach development, at Kissimmee, May 15, 1946.

Practically presented a new subdivision plat for lands lying south of E street, between Third and Fourth streets. No action was taken on this matter until a full board is present to consider it.

## Housing Bottleneck

Lumber needs for this year are estimated by the Civilian Production Administration at 3,000,000,000 board feet a month. But actual output has fallen below 1,900,000,000 board feet monthly. Obviously, drastic action is required to restore lumber production if we are to come within any distance of attaining the goals of the Wyatt program to provide housing for veterans.

OPA price ceilings are held chiefly to blame within the industry for the persistent decline in lumber output. Economic Stabilization Director Chester Bowles replies that relatively low wages that prevail in the industry are mainly at fault. But there is no real contradiction between these two explanations, low price ceilings have prevented wage increases.

One witness before the Senate subcommittee yesterday blamed the nation between OPA price ceilings on green and on kiln dried lumber. The larger profit on the green lumber, which is not suitable for building, curtails output of the kiln dried product, which is used in construction. This indicates that the relation between price ceilings, as well as their level, require re-consideration.

## TILLER MACHINE

(Continued From Page 1)  
and how it has effect on plant life.

W. T. Forsee, Jr., spoke his remarks summarized as follows:

Most of the fertility experiments conducted during the past two years have been carried out with two things in view other than the obtaining of yield data. First, the experiments have been carried out in the fields of commercial growers so that the plots would be planted, cultivated, sprayed and harvested just as the grower conducts such operations. Second, rather detailed studies of the soil and plants have been carried out.

Soil tests and plant analyses have been made on sample collected from each plot. This gives such information as may be necessary on what to base fertilization recommendations for the future.

The fertility studies made have been soil variables of phosphate, potash and pH on potassium and celeri.

Portions on raw Everglades soil, which yield little to no response to phosphate and potash applications. Celery on old Everglades peat soil had been planted to celery each year for approximately ten years gave large yield increases to phosphatic applications. Yield increases to potash application were considerable and considerable yield increases to sulfur applications which lowered the soil pH from 6.2 to 5.7. Celery on two year old Everglades peat soil had shown little or no response to phosphate. Sulfur applications of 20 pounds per three hundred feet of seed bed decreased the soil pH from 6.3 to 5.7 and decreased the growth of celery seedlings. A further decrease in pH by heavier applications of sulfur gave no additional increases in plant growth.

Such soil test, plant tissue test and yield observations will be made on other crops. As soon as

as we have the necessary space and equipment available we will be able to make routine soil and plant analyses and such information in making more specific fertilizer recommendations for crops to be planted on soils of various fer-

Mr. Felix told of his studies on virus diseases that effect celeri, peppers, egg plant and tomatoes, and the progress being made to battle the virus.

Mr. Felix again spoke on boron insecticide experiments stating that both DDT and 666 in proper application, had been very successful in control work especially on the leaf hopper, but only fair on the thrips.

The announcement that Dr. Leonard had been appointed pathologist at the station for a period of 14 years, was soon to leave the station, to go with the federal government at Bettisville, Md., was received with uniform regret, for he had been due to the work that much had been accomplished. The Glades has been achieved.

Dr. Townsend will head the fertilizer department at the Maryland proving ground.

## CINEMATIC CHATTER

By Malcolm M. Miltz

The show coming to the Everglades this week is "Tuesday Wednesday, May 7th and 8th." "Breakfast in Hollywood," is presented by the ever-clevered roots, and partly the crops can be destroyed at times of poor quality, or glut of market periods.

The announcement that Dr. Leonard had been appointed pathologist at the station for a period of 14 years, was soon to leave the station, to go with the federal government at Bettisville, Md., was received with uniform regret, for he had been due to the work that much had been achieved.

In this film, the genial host does most of the patter—playing it cool, commanding the down or cupid. In all instances he emerges as a handsome personality who hits the jackpot in his first screen role.

People of Palm Beach County  
should again elect

Russell O.  
Morrow

as

State Representative  
(Group 1)

## BECAUSE . . .

He is qualified by experience to hold office as State Representative by virtue of serving in such capacity for THREE TERMS prior to the war.

He was a member of the WORKMAN'S COMPENSATION

He has always secured the needful appropriations for the maintenance and expansion of the Everglades Experiment Station at Belle Glade.

He served more than 3 1/2 years in the U. S. Navy.

(Paid Political Adv. by Friends of Russell Morrow)

farm machine.

This rotary tiller is a new article of farm machinery to be used in the Everglades. It is the demonstration model to be very useful and effective. It is of the tractor type, equipped with rotary cutters, which cut the grasses, roots and palmettos and grind them into the soil or ground. It is a good idea to do the work of both a plow and disc, and eliminates one of these portions of farm labor. It will turn in foreign vegetation material into the soil for a greater yield. It works quickly and effectively, with the saving of much labor and time.

It promises to be a quickly adopted piece of machinery. Colorful and brightly painted, it clearly depicts roots, and partly the crops can be destroyed at times of poor quality, or glut of market periods.

The announcement that Dr. Leonard had been appointed pathologist at the station for a period of 14 years, was soon to leave the station, to go with the federal government at Bettisville, Md., was received with uniform regret, for he had been due to the work that much had been achieved.

In this film, the genial host does most of the patter—playing it cool, commanding the down or cupid. In all instances he emerges as a handsome personality who hits the jackpot in his first screen role.

BRIDGE LUNCHEON  
AT CLEWISTON INN

For the girls were entertained at the Clewiston Inn on Thursday with a bridge luncheon given by Mrs. William J. Beck, Mrs. C. J. Aspey, Mrs. G. W. Washington and Miss Carlene.

Luncheon was served in the dining room, then the games were played on the patio. A basket of goodies was given to each player with a face card and a card with the score cards surrounding it. Winners of the bridge games were Mrs. Hubert Fink, Mrs. Harold Elsberry, Mrs. E. C. VanLandingham and Mrs. O. G. McPherson. Game winners were awarded to Mrs. H. V. Draa and Mrs. W. S. Ingram.

Other guests included Mrs. R. Y. Cross, Mrs. M. S. K. Smith, Mrs. R. Y. Creek, Mrs. Lee Hay, Mrs. J. L. Price, Mrs. Lee Inley, Mrs. George Williams, Mrs. Hayden Williams, Mrs. George Bender, Mrs. W. E. Webb, Mrs. C. VanLandingham, Mrs. Harry Hitchcock, Mrs. Sam Berry, Mrs. L. C. Betzner, Mrs. Susan Connell, Mrs. Francis Harris, Mrs. T. Harris, Mrs. Rosa New, Mrs. M. L. Ladd, Mrs. Jack Thomas, Mrs. Red Kent, Mrs. Douglas Mathews, Mrs. Charles McWhorter, Mrs. Mark Challanen, Mrs. C. E. Maynard, Mr. and Frank Hobrook, Mr. Jerry Mack, Mrs. Dorothy Wright, Mrs. Harold Rabin, Mrs. Bee Fleming, Mrs. W. W. Weeks, Mrs. Charles Fontaine, Mrs. L. P. Parsons and Mrs. E. A. McCabe and Mrs. H. R. Hitchcock.

STORK SHOWER FOR MRS. JUNIUS HARRIS

Mrs. Junius Harris was given a shower at a work dinner Friday evening given by Mrs. Virginia Howington and Mrs. Florence Smith at the former's apartment. Card games were enjoyed with the group being entertained by Mrs. Harold Rogers, Mrs. J. B. Jones, Mrs. J. B. Burford Prescott and Mrs. John Newton. Refreshments were served by the hostesses, and Mrs. Maynard displayed her many lovely gifts.

The guest list included Mrs. Grady Edwards, Mrs. E. T. Morris, Mrs. Clyde Clayton, Mrs. E. R. Riddle, Mrs. Luther Jones, Miss Nellie Cook, Mr. Tom Stein, Mrs. Mildred Tillery, Mrs. C. A. Boone, Miss Nancy Tedder, Mrs. C. J. Aspey, Mrs. Joann Farmer, Mr. and Mrs. Young, Mr. and Mrs. King, Mrs. George Boyderton, Mrs. H. D. Beck, Mrs. Otis Carlton, Mrs. Lester Clarke, Mrs. Nell Seullen, Miss Louise Hollingsworth, Mrs. J. K. Baker, Mrs. L. C. Betzner and Mrs. Thomas Parsons.

BIRTHDAY DINNER FOR LOIS TIDWELL

In honor of Miss Lois Tidwell's birthday, a family dinner was given by her parents, Mr. and Mrs. W. D. Tidwell, Tuesday evening. Other guests were Miss Harris McLain and Miss Hattie Jones. After dinner the group attended the theater in Clewiston.

SWIMMING POOL

Completed recently by 1

who is an engineer at the water

works project, who has been su-

ervising other city improve-

ments. Will take over the super-

vision of this project.

The second unit will be the

community auditorium, plans for which are now under making and consideration, but it may be late fall before this portion of the program can be started. This building will be so designed that it can be used throughout the year round for most every sort of community affair, meetings, conventions, indoor athletic events, entertainments, banquets and other gatherings. It will be provided with stage and electrical equipment, a dining room, kitchen, and large auditorium, lavatories and consultation rooms, and the best of acoustics.

Sara Creech, chairman of the board, has named the following

executive committee, who will be in the advancement of the improvements:

Chairman: D. C. DeHaven and Lee Puckett, Jr.

Building Committee: H. O. Edwards, Mrs. Roos, and Mrs. Ethel Freeman.

Finance: Mayor George Taylor, A. E. Kirchman, Mrs. Ida Creech, H. E. Jones, Mrs. R. L. Murphy.

Publicity: Luther Jones.

## MILLIONS SPENT

Continued from page one  
is more than that estimated when the plans were drawn. Recent yields from test plots are more than double those of five years ago. The cause? Applied research," he emphasized.

Applied research on arrowroot, the finest starches have already been extended to commercial scale plantings and it will be a short time until both sweet potatoes and arrowroot starches are being produced in the starch-house, Mr. Bitting announced.

"Because of the achievements of the corporation, other interests are now constructing a sugar-house in the Upper Glades and still another is planning a large-scale long-term construction," he reported. "Results in connection with ramie have caused wide spread plantings and additional decorations and decumpling to be provided. The cost of seed to the grower has interested others in development of improved pastures, so the list can be continued, but the examples are sufficient to show the role played by the corporation in the development of the Everglades. And as yet the surface is hardly scratched."

The starch-house, largest and most modern of its type in the world, consists of two buildings, covering six acres of ground, with content of all structures in excess of 2,500,000 cubic feet. In addition to its starch output, it will produce 10,000,000 pounds of dried starch and pulp.

The project represents a substantial part of the company's \$20,000,000 diversification pro-

gram. With its new starch-house and the sugar-house, largest in continental United States, the sugar corporation provides jobs for more than 7,500 persons with a yearly payroll approximating \$10,000,000.

For the expanded operation, the company has constructed a new system of setting a total of more than 200,000 population. Some 4,000,000 gallons of water daily are taken from nearby Lake Okeechobee, a nearly completed disposal plant returning the water to the lake in a purer condition than when it was withdrawn.

Steam generating facilities have been doubled to provide 100,000 horsepower, 100,000 pounds of steam and \$3,000,000 hours of electricity daily.

All the buildings of this starch-house are of modern design, built of reinforced concrete, framing and feature the use of glass brick walls and plated tile.

The starch and its derivatives are used in the production of almost every item of commerce—from cream puffs to dynamite.

## TWO REGIONAL FAVORITES IN PERFECT HARMONY

### Plantation Barbecued Chicken

**RECIPE:** Allow half a chicken for each person, split each breaster and rub with salt, pepper and melted butter. Place in a broiling pan and broil under a hot broiler until tender. Then cover with barbecue sauce, 30 minutes. Then cover often. SAUCE: (for 2 broilers) 1/4 cup catsup, 3/4 cup vinegar, 1/2 cup salt, 1/2 cup lemon juice, 1/4 cup barbecue sauce, 3/4 cup Worcester sauce, 2 tablespoons of JAX BEER. Serve with tall glasses of JAX BEER! Serves 6.

Address: Recipe Editor, JAX

Brewing Co., Jacksonville, Florida.

### AND SPARKLING JAX BEER!

As inviting a supper as you could wish for... spicy, Plantation Barbecued Chicken and the golden, tangy goodness of sparkling JAX Beer. The drink of friendship.

Always mellow, rich, and zesty, you'll find refreshment at its satisfying best when you enjoy JAX Beer! JAX, the great regional beer of the Southeast, has been bred especially to please the tastes of this region. A drink of friendship with premium goodness that never varies. JAX Beer is grand with meat—tempting refreshment just by itself.

SAY JAX!

## The Belle Glade Herald

ed from a trip to Gainesville, where she visited her son Ray, and made arrangements for a graduate course which she will pursue this summer.

Mrs. Barbara Barnes and mother, Mrs. E. Barnes of Lake Worth, and Mrs. S. Blanchard of Blackshire, Ga., were guests of Mr. and Mrs. A. B. Barnes and family on Monday.

Mr. and Mrs. Wade Carter of Delray Beach were Thursday dinner guests of Mr. and Mrs. Mark Challacombe. The Carters are spending the next few weeks in New Smyrna.

South Bay teachers are attending the classroom teachers' meeting at West Palm Beach High school auditorium Saturday.

Mr. and Mrs. John Cushingberry have received word that their son Kenneth Warren, seaman first class, is en route home from Okinawa where he has been stationed.

Mr. and Mrs. William Boots have returned north after a three week honeymoon in West Palm Beach. They visited his parents, Roy and W. R. Rawls and family in Charleston, S. C. Mr. Boots was wounded on the island of Guam during the fighting there in August 1944 and has been hospitalized much of the time since.

E. L. Baer of Great Forks, N. D., has returned to South Bay to look after a new customer. He reported that his son, E. L. Baer, Jr., has enlisted in the Marine air corps and is now in training.

J. W. Strickland has returned from the Good Samaritan hospital.

Friends have received word that Mr. and Mrs. Paul Dillow, of South Bay and Belle Glade, are now making their home in Canute, Kansas, where he is employed in a brick plant.

Ben Hobbs, who has been ill, reported rapidly improving.

Mr. and Mrs. Mack Terry and family have moved to the Osceola Migratory camp near Chosen.

Mrs. Mary Willis and daughter, Mrs. Curtis Rutledge of Okachobee, visited Mr. and Mrs. Forrest Norton last week.

Mr. and Mrs. F. E. Joy of Lake Harbor are leaving to spend the summer at New Smyrna.

Mrs. S. M. McAllister, Mrs. H. L. Marlowe, Jr. and son, Jerry, returned home from Asbury Park, N. J., the last of the week, bringing with them Mrs. McAllister's brother, Buford Lunakin, for a week end visit.

Laymon Hardy, recently discharged from the navy, went to Gainesville last week, where he visited his brother, Roy, and made arrangements for entering the University of Florida and then went to Bonifay to visit his grandfather, J. H. Squires, for a couple of weeks.

William Mason of Orlando accompanied his grandson, Laymon Hardy, home the last of the week and is visiting Leland and his father, L. L. Hardy.

Mrs. Edna Walker and family went to Miami the first of the week to visit her sister, Mrs. Lessie Ellison and her daughter, Mrs. Maxine Walker.

Mr. and Mrs. Cooper Phipps, Mr. and Mrs. J. C. Bass have returned from a week end trip to Key West.

Building a Hyacinth  
Achieving Machine

The South Florida Conservancy District is having a spraying machine made to be used for control of hyacinths in the canals and drainage ditches. The machine is now under construction at the Plank Machine Shop in Lake Harbor and is expected to be completed some time next week and ready for use.

B. O. Plank has used a model A Ford chassis and motor with special transmission to give the machine 17 speeds forward and five in reverse, and which will allow it to be driven at a speed as low as one mile per hour and as high as 60 miles per hour. It is mounted on 14x28 treaded tires with dual wheels on each side.

A 200 gallon tank powered by a four cylinder pump will be used to spray the herb. A special formula put out by DuPont will be used to spray the tiles. The chief difficulty in using poison to kill hyacinths is

that wild life, including fish in the canals, birds, bees, and insects, and animals which feed on hyacinths or live in the water, were endangered by the poison used to destroy the lily pest.

This new formula is said to be much more effective and does not harm either animals or other forms of vegetation. If the formula works, it will be a great boon to the Everglades and lighter our drainage problems in the area which will open up the drainage canals and ditches which have required continuous and expensive methods of eradication in the past.

Mr. and Mrs. J. W. Warren

have received word that their son Kenneth Warren, seaman

first class, is en route home

from Okinawa where he has

been stationed.

of the community and their parents. He has thus contributed to the development of the community as a fitting site for a recreational program for the juveniles of the vicinity. Other members of the faculty have also contributed to the cause by assisting with the ticket sales and other parts of the program.

**New Lily Farm**

A new farming project has

been initiated by James Wood

and R. C. Clark in the

Broward district of Glades county.

The men are specializing in

bulbs, rather than the bloom.

They are looking for local

suppliers for local equipment.

They are looking for further

expansion of their plantings.

There are large lily pads

up in Lake Placid section of

Hillsborough county, but as yet no such

promotion has been attempted

in the Glades area.

## Sets Forth School Policy

Principal Harold E. Emery of the South Bay school reported that his policy is to permit the use of the school facilities and buildings for any legitimate public meeting or community activity. He hopes the public will feel free to call upon him at any time for permission to do so. Mr. Emery has shown himself very cooperative with the community in this respect and his courtesy is appreciated.

Mr. Emery has been putting on a picture show the second each week during the year, showing good clean pictures of culture and education nature, as well as entertainment for the children.

## Island Landscape Company

We wish to thank our many friends in the Glades for the business which they have given us in the past and for their understanding and helpful attitude toward us during the years while we were mainly engaged in the preparation and maintenance of Airfields for the Army and Navy.

Once again we are able to resume peacetime operations and offer you the same efficient and courteous service which it has been our endeavor to render in the past. The service, from landscape designing to a finished planting job. Our Nurseries are stocked with a wealth of lovely trees, shrubs, vines, potted plants, etc., awaiting your selection.

We invite you to stop in and visit us at any time and will appreciate your continued business.

E. TROY HALTER, President.

its waterways projects. Not only by the fine representation present, but by the mass of information and factual statements included in the various reports. These reports have been very carefully compiled, both in the earnestness of those who spoke in behalf of the big improvement program. The evidence presented surely showed that of the proposed canal projects, would greatly exceed the cost of same, over the future period of time, and that with these projects completed and working, the production would be favorable to the growers, and to the foods markets of the world. When a people show an organized force back of badly needed public projects, they usually get what they want, and this is what we are trying to do at present.
